Inspection

Type: ROUTINE INSPECTION

Date: MAY-23-2008

2.31 (e) (1)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

(e) A proposal to conduct an activity involving animals, or to make a significant change in an ongoing activity involving animals, must contain the following:

- (1) Identification of the species and the approximate number of animals to be used;

**While reviewing Protocol 201 a discrepancy was noted in the numbers of animals approved by the IACUC . In the protocol it states that 35 rabbits were approved, however, in the description of the procedure the principal investigator indicates that 60 animals will be utilized. In the IACUC's communication to the principal investigator it states the protocol is approved for 70 rabbits over a 2 year period although that is not clearly stated in the approved protocol. The IACUC should review the protocol to ensure it clearly states the accurately reflects the timeframe and numbers of animals that have been approved for the protocol.
