official*

JUL 16 2010

On behalf of the National Association for Biomedical Research (NABR) and pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, et seq. as amended, I respectfully request the most current list of the names, institutions, titles, email addresses and mailing addresses for the USDA's contacts at each registered research facility.

- (1) If the USDA is in the possession of a list, database, or other document wherein such information is collect or compiled, this request is for that list, database or document. If the USDA keeps this information in electronic format please provide it in that format.
- (2) If the USDA is not able to incorporate emails into the list of names, institutions and addresses, please provide the emails as a separate list or database. If the USDA keeps this information in electronic format please provide it in that format.
- (3) If no such list, database, or document containing the email addresses of the USDA's contacts at each registered research facility exists, please provide a copy of the page of the most recent application for registration or other document whereupon an e-mail address for each institution is provided.

If my request is denied in whole or in part, please provide all non-exempt portions of any exempt records. Please also explain any redactions by reference to specific provisions of the FOIA that allow information to be exempted from disclosure.

I request a waiver of any search and copy fees under this request as my interest in the records is not commercial and I am requesting these records on behalf of a nonprofit organization that contributes to the public's understanding of the operations of the federal government. The disclosure of the information requested will also contribute significantly to public understanding of the agencies response to document requests. If any fees will be charged for this request please seek my consent before any expenses in excess of \$50 are incurred.

I look forward to receiving your response within the twenty working days as specified by regulation and thank you in advance for your prompt attention to this matter.

Sincerely,

Andrew Cardon
