Fax

Details of Complaint: Concerns about the health of puppies from an unlicensed dealer doing covered activities.

Results: Inspector met with Ms Edney on 7/1/10 to discuss the issues raised in the complaint. Ms Edney says that the person receiving the dogs in CA is her sister. She raises them here and the resulting offspring are shipped to CA and offered for sale. The pups are shipped by commercial air carrier which requires that the animals be seen by a licensed veterinarian who issues a general health paper to accompany the shipment. This validates an age of at least 8 weeks which is a requirement of the AWA for a commercial carrier to accept for shipment a dog in commerce. Unless documentation can be provided to APHIS officials showing the ages of the pups being shipped to be different than that represented by the health paper for shipment or documentation showing a covered activity being committed by MS Edney or the sister in CA the inspector addressing this complaint can find no validation in the complaint based on information supplied to the inspector.

Application packet provided? Yes No
