Dear Ms. Wilkerson,

MAY 20 2010

According to the December 2009 edition of the USDA Veterinary
 Biologics Product Code Book, Lohmann Animal Health International currently holds licenses for
 the following products:

USDA code	Product
12G5.10	Bursal Disease – Newcastle Disease Vaccine (Killed Virus)
1705.11	Newcastle Disease Vaccine (VG/GA Strain, Live Virus)
1711.10	Newcastle Disease Vaccine (B1 Type, B1 Strain, Live Virus)
1775.10	Newcastle Disease Vaccine (Mass Type, Killed Virus)
17P5.10	Newcastle – Paramyxovirus Vaccine (Type 3, Killed Virus)

— Please provide the Lot Release Protocols for the testing of these final products.

PETA is entitled to a fee waiver because the release of the public records will contribute significantly to the public's understanding of the agency's administration and because the release is not in the commercial interest of PETA, as defined by 5 U.S.C. § 552(a)(4)(A)(iii). The legislative history of the public interest fee waiver standard "clearly indicates" that Congress intended to create a test that was to be "liberally construed," and was "consistently associated with requests from journalists, scholars, and *non profit interest groups* who it intended to benefit." *Ettlinger v. FBI*, 596 F.Supp. 867, 872 (D. Mass. 1984) (emphasis added).

Sincerely,

Jeffrey Brown
