Subject Re: Fw: CO wolf press release- DRAFT

Mike,

On behalf of the Western Regional Office, I would like to thank you for your comments and edits to the attached press release. It certainly would have focused a lot of unnecessary attention at our program as a result of the illegal activity in this unfortunate incident by someone not associated with our program. As Rod mentions below, we very much do appreciate the good working relationship we have through you with the USFWS and this is another example of that good relationship.

I wish you a great New Year!

Subject Fw: CO wolf press release- DRAFT

USFWS is soon going to have a press release on the wandering wolf that was killed in CO a year or two ago. The lab has determined the wolf was killed by 1080 poisoning. The draft press release unnecessarily tied it to WS. Mike Jimenez in reviewing, objected to it, and his comments and edits are below. I really appreciate his concern for the good working relationship we enjoy. When this was happening, he called me on the phone to give us a heads up and while we were talking the LPA folks emailed back and had accepted all of his edits.
