APHIS in Action

Last Modified:

Every day, APHIS works to protect the health and value of America's agricultural and natural resources. These articles tell a story about how we are tackling some of the biggest issues facing U.S. agriculture and natural resources today.

What You Need to Know Before Shipping and Receiving Agricultural Items

People ship and receive packages using express courier companies—like FedEx, UPS, DHL, and others—all the time. But when the package includes an agricultural item, things can get dangerous for U.S agriculture and natural resources.
