Export Live Animals to Turkey

Last Modified:

Electronic Signature **ACCEPTED**; Original Ink Endorsement **REQUIRED**

For Accredited Veterinarians: Electronic signature **ACCEPTED**

For APHIS VMO: Original ink endorsement **REQUIRED**

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for endorsement.

USDA must ink-sign and emboss the health certificate.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: You can arrange to have your health certificate returned by mail (a prepaid, preaddressed return label must be provided during certificate submission). The endorsed health certificate—ink-signed and embossed—must accompany the animal(s) during shipment or travel.

Live Animal Export Country Requirements
[Requirements](#)

- Select a Country -

Summary of Requirements

Note: All health certificates for U.S. origin animals and animal genetics destined to Turkey (with the exceptions of bovine semen* and day-old poultry**) must be endorsed by APHIS no more than two (2) days prior to export. Exporters are advised to schedule health certificate endorsement with their [local USDA APHIS Endorsement Office](#) accordingly.

Note: The Ministry of Agriculture and Forestry (MinAF) of the Republic of Türkiye has shared the following list of entry ports in Türkiye that are permitted to inspect imported live animals and animal products. Please use this list of approved ports of entry when planning shipments of animals and germplasm.

Taking a Pet to Another Country?

[Visit Pet Travel](#)

If your species is not listed, the requirements for that species are not known. Exporters who want to ship livestock or germplasm whose requirements are not listed above should have the importer or buyer in the destination country apply for an import permit at the appropriate ministry. This import permit will most likely

outline the specific requirements.

Need Help?
