Veterinary Health Certificate for Export of Pigeons and Dove (Columbiforms) Species to the United States of America (non EU-PTR)

Veterinary Authority	Date of Issue	Certificate Number
----------------------	---------------	--------------------

The issuing /official veterinarian certifies for export that all columbiforms covered by this certificate have been inspected and attests to the following statements, the columbiforms:

1. The columbiform(s) was/were shipped in new or appropriately sanitized containers prior to current use.
2. The columbiform(s) did not come in contact with wild birds or poultry within the 30 days previous to exporting the premise of origin.
3. Have not been vaccinated with a vaccine for any H5 or H7 subtype of avian influenza.
4. Have been examined prior to movement from the premise of origin and there was no evidence of poultry communicable disease.
5. CHOOSE EITHER A OR B BELOW:
 - A) The columbiform(s) was/were not vaccinated against Newcastle disease.
 - OR
 - B) The columbiform(s) was/were vaccinated against Newcastle disease (avian paramyxovirus) at least 21 days prior to export, using vaccines that do not contain any velogenic strains of Newcastle disease virus

Name:

Date:
6. The columbiforms covered by this certificate does/do not originate from flocks nor had contact with any birds or poultry originating in a control zone established by state/provincial/federal animal health authorities due to outbreaks of Newcastle disease or Highly Pathogenic Avian Influenza (HPAI).
 Note: if columbiforms originating in countries where APHIS considers highly pathogenic avian influenza to exist, were moved without co-mingling the shipment with any other avian types after leaving the premise of origin.
7. Birds were inspected within 24 hours of export.

*****Certificate shall be valid for 30 days from date of issue*****
