Veterinary Health Certificate for Export of Hatching Eggs of Ratites to the United States of America

Veterinary Authority	Date of Issue	Certificate Number
-----------------------------	----------------------	---------------------------

The issuing /official veterinarian certifies for export that the flock of origin for the hatching eggs covered under this health certificate were inspected by the veterinarian issuing the health certificate.

1. The flock of origin for the hatching eggs were not vaccinated against any H5 or H7 subtype of avian influenza.
2. CHOOSE EITHER A OR B BELOW:
 Have not been vaccinated against Newcastle disease (strike out which does not apply).
 OR
 The flock of origin for the hatching eggs have been vaccinated against Newcastle disease (avian paramyxovirus) at least 21 days prior to export, using vaccines that do not contain any velogenic strains of Newcastle disease virus.
 Name of Vaccine:
 Date:
3. The flock of origin for the hatching eggs presented no evidence of avian communicable disease within the 30 days prior to the hatching of the first egg laid for this shipment.
4. The hatching eggs were exported from an area that was not adjacent to any areas under quarantine during the 90 days preceding the exportation.
5. Ratites hatching eggs covered by this certificate do not originate from flocks nor had contact with any birds or poultry originating in a control zone established by state/provincial/federal animal health authorities due to outbreaks of Newcastle disease or Highly Pathogenic Avian Influenza (HPAI).
6. The shipment will not transit through any region where APHIS considers highly pathogenic avian influenza to exist.
7. The hatching eggs were placed in new or appropriately sanitized packaging for shipment to the United States at the premises where the flock or origin was kept.

Note: for Canadian shipments only: The ratites in the flock of origin for the hatching eggs were either hatched in Canada; or were legally imported and then have reside in Canada for at least 90 consecutive days prior to collecting eggs to comprise the shipment.
