

Import Requirements for Mango Fruit Treated With Hot Water

- ◆ Consignments must be treated at an APHIS-approved facility.
- ◆ Consignments must be precleared and accompanied by a completed PPQ Form 203 (yellow or white) or an electronic message (email) from APHIS with a PPQ Form 203 attachment to validate foreign site preclearance inspection and/or treatment.
- ◆ Each box must be marked with the statement “USDA APHIS treated with hot water.”
- ◆ Authorized Users Only: Refer to Special Procedures for Precleared Hot Water Treated Mangoes in the “Instructions for Officers” section.
