Seize all items infested/infected or contaminated with insects, snails, soil, or disease and refer them to CBP Agriculture Specialist.

- ¹ Except for Szechuan peppercorns, dried citrus is prohibited. Szechuan peppercorns are admissible.
- ² Propagative material is that which will be grown and includes such things as bulbs, cuttings, live plants, seeds or tissue cultures.
- ³ Includes such things as articles made of wood, baked goods, dried floral arrangements, plant fibers, commercially packed nuts, spices (**except for** dried citrus), and straw having **no** seed heads.
- ⁴ This would include soil or sand used as packing material.

REFER TO CBP AGRICULTURE SPECIALIST (CBP-AS):

- Any questionable items or products found infested.
- Items to which only CBP Agriculture Specialist or PPQ has the authority to grant clearance.
- Rice straw baskets, tatami mats, any item with rice straw packing.
- Unprocessed cotton such as samples, lint, bolls, or seeds.
- Burlap sacks or covers.
- Items packed with prohibited materials (straw, grass, soil).
- Animal or bird cages, semen containers, animal feed.
- Commercial quantities of agricultural products.
- Beehives and beekeeping equipment.
- Contaminated footwear.

SAFEGUARD:

Contact CBP Agriculture Specialist for specific procedures for disposal of foreign stores and garbage.

Nearest CBP-AS Office: _____ Phone Number _____

- All agricultural items seized must be placed in covered leak proof container, to be disposed of by **incineration or steam sterilization**.
