

Approved Hosts of *Phytophthora ramorum* Facilities

As of February 1, 2023

The importation of host plants for planting (**except** seeds) as listed in the [Plants for Planting Manual](#) from a country where *Phytophthora ramorum* (sudden oak death) is present may enter the United States **only** if sent from an APHIS approved facility (place of production) listed in [Table 1](#) below. The approved facility's registry number can be found in the additional declaration field of the phytosanitary certificate accompanying the shipment and **must** match one of the registry numbers in [Table 1](#).
