

**U.S. Department of Agriculture (APHIS) – U.S. Customs and Border Protection (AI)
CRUISE SHIP PASSENGER - AQI MONITORING DATA**

Location: _____

Inspection Date: ____/____/____

Inspected By: _____

A) Ship/Vessel Name: _____ B) Pax Destination: _____/_____
City (no abbreviations) State
 C) Number of Pax Present: _____
 D) US Citizen: No Yes E) US Resident: No Yes
 F) How Agriculture Questions on Custom Dec Marked (see instructions): No Yes Not Checked
 G) **Have Been** On A Farm or Ranch/Near Livestock? No Yes H) **Going to** a Farm or Ranch? No Yes I) **Any Item(s) of Agricultural Interest?** No Yes

*Where Acquired: :
A- Ashore O – Onboard **Action: **S- Seized ; IR – Inspect & Release**
CT –Clean/Treatment *** Found in Luggage Type: **1 – Backpack; 2 – Basket/Straw Bag 3 – Cardboard Box;**
4 – Cooler; 5 – Duffel Bag; 6 - Hand Carry Bag; 7 - Suitcase

Item	Where Acquired* (See +++)	Quantity of Item	Declared Verbally		Declared Written		Phyto Present No Yes	Action Taken **	Luggage Type **	Pest Pres.		Pest Number	Contami- nant		Pest Identification Or Contaminant
			No	Yes	No	Yes				No	Yes		No	Yes

+++ If Acquired ASHORE list **Country** where item obtained on Corresponding Item NUMBER below:
 1, _____ 2, _____ 3, _____ 4. _____

INSTRUCTIONS – CRUISE SHIP PASSENGER AQIM

1. Record the Location, Inspection Date, and Inspected By of this inspection.

Inspected By: Print name or badge number of person responsible for inspection of passenger(s) selected. This data is for local office use, it is not recorded in the national database.

2. Data fields "A through I" **must** be filled in for a completed monitoring record even if no agriculture item(s) are found.
3. All QMIs found need to undergo 100% inspection for pests. All pest types and quantities found on QMIs must be recorded on pest interception form(s). Also record "NO" if no pests were found. See Pest Interception # explanation below.

- A) Ship/Vessel Name: Record the ship/vessel full Name
- B) PAX City/State Destination: Record the passenger's primary city and state of destination in US. Do not use letter codes for city name. Spell city name fully and consistently. Use 2 letter codes for state. If going to multiple destinations, record last or final city/state destination. If in transit to foreign country, use "in transit" (IT) for both state and city.
- C) Number of PAX: Record the **total number** of passengers declared on the declaration form or passenger documents.
- D) US Citizen: Check the US citizen status of the person that signed the Custom's Declaration Form.
- E) US Resident: Check the resident status of the person that signed the Custom's Declaration Form.
- F) How Agriculture Question on Custom Declaration is Marked: Record how Question #11 on old declaration **OR** Questions #11(a-d) and #12 on the NEW declaration are marked. If **ANY** are marked **Yes**, then record Yes on data form.
- G) Have Been on a Farm or Ranch/Near Livestock? Record if passenger(s) were on a farm (whether animal or crop farm) or near livestock within the last 30 days while in a foreign country.
- H) Going to a Farm or Ranch? Record if passenger(s) are going to a farm environment (whether animal or crop farm) within the next 30 days. This question provides risk related information on plant and animal products destined to agricultural areas
- I) Any item(s) of Agricultural Interest? Check whether the passenger has an item of agriculture interest. Agriculture interest is defined as items (such as plants, plant products, meat or animal products, shoes, ...etc.) that require CBP's attention for purposes of regulation, inspection for pests, seizure, cleaning, verifying paperwork...etc. **If yes, then complete the section below this question.**

List Item: Record the name of each item of agricultural interest found during the inspection. List each item beginning with items **seized** then items **cleaned or treated** and finally items **inspected and released**.

Where Acquired: Record if the Item is from ONBOARD or obtained ASHORE at a port of call. If obtained ASHORE then must indicate the COUNTRY the item was obtained from in section +++

Quantity/Amount of Item: Weight data is important as a standard for risk analysis. Most items can be recorded as a weight. Indicate the weight in kilograms, **up to a TENTH (.0) of a KILOGRAM**. Obtain or accurately estimate weight of items (apple, orange, etc.) whenever possible. For plant items (flowers, etc) record number of stems or pieces. For items not practical for obtaining weight (shoes, trophies, etc.), record quantity of these as unit of EACH.

Declared Verbally: Check the appropriate response to indicate if item was officially declared to CBP verbally.

Declared Written: Check the appropriate response to indicate if item was officially declared to CBP via the declaration form or other official passenger documents.

Phytosanitary Certificate Present: Record if a phytosanitary certificate is present for the item.

Action Taken: Record the appropriate response using codes found on the bottom of the data form.

Type Luggage Found in: Record the appropriate response using codes

Pest Pres(ent): Check correct response to indicate if a **Reportable or Actionable** pest(s) was found, if status not known yet, make sure record is updated.

Pest Number: If pest found, send all pests intercepted to identifier personnel for identification. Mark the interception "**PROMPT: AQI MONITORING**". Record Reportable or Actionable pests only. Make sure to update record with interception number(s). This may need to be done at a later time or by local identification personnel.

Contaminant Present: Record if items were contaminated or not. If **yes**, record the contaminant name.

Pest Identification or Contaminant: Record the official id for all reportable/ actionable pests OR list the contaminant present on the item (dirt, blood, etc.)
