**4. BACKGROUND**

On November 9, 1999, Treasury published its Policy Directive requiring all Federal agencies to eliminate domestic imprest funds by October 1, 2001, except where the need for an imprest fund is justified and when the imprest fund is operated in compliance with the Treasury Policy Directive. In compliance with this Directive, APHIS eliminated all domestic imprest fund accounts as of September 30, 2001.

Foreign imprest funds provide an important function to enable APHIS to carry out the Agency’s mission overseas justifying the need for continuous use. The Agency uses imprest funds to make small payments in cash when an office has a recurring need to reimburse employees for **official business expenses** and when other payment methods, such as ePRES or Smart Pay 2 are not possible or feasible. Currently, APHIS operates imprest funds in many foreign countries because of those offices’ need to make purchases in local currencies. APHIS also seeks to avoid high administrative State Department costs (International Cooperative Administrative Support Services charges) to process reimbursements through overseas embassies.

**5. POLICY**

- a. Criteria to Operate Foreign Imprest Funds. APHIS will establish, maintain, and operate imprest funds at overseas posts when **all the following criteria** are met:

<b>CRITERIA TO OPERATE FOREIGN IMPREST FUNDS</b>	
<b>1. It is economical and beneficial to the Government.</b>	<b>✓ YES</b>
<b>2. When there is a definite and continuing need for making cash payments for equipment repairs, small purchases, local travel, and cash-on-delivery (c.o.d.) orders.</b>	<b>✓ YES</b>
<b>3. No other payment mechanism is available.</b>	<b>✓ YES</b>

<p><b>4. A payment by Electronic Funds Transfer (EFT) is waived in accordance with the provisions of 31 CFR 208, Management of Federal Agency Disbursements, at §208.4 Waivers.</b></p>	<p>✓ YES</p>
<p><b>5. Agency procurement policies are followed.</b></p>	<p>✓ YES</p>

b. Meeting Treasury’s Criteria. In addition, APHIS must certify, in writing, that the imprest fund meets one of the following criteria also specified in Treasury’s Policy Directive. The Marketing and Regulatory Programs Business Services (MRPBS), Financial Management Division (FMD) will coordinate and manage this function to ensure compliance with Departmental and Federal regulations and Treasury’s Policy Directive when:

- (1) Payments involve national security interests, military operations, or national disasters.
- (2) Payments are made in furtherance of a law enforcement action.
- (3) The amount owed is less than \$25.
- (4) The political, financial, or communications infrastructure of a foreign country does not support payment by a noncash mechanism such as EFT, the U.S. Debit Card, or the Automated Clearinghouse System.
- (5) Payments are made in emergencies, or in mission-critical circumstances, that are of such an unusual and compelling urgency that a government would otherwise be seriously injured unless payment is made by cash.

c. Maximum Per-Transaction Spending Limit. The maximum per-transaction spending limit for normal day-to-day cash expenditures is \$500 US dollars or equivalent. Claims in excess of \$500 US dollars or equivalent must have written approval from the Administrator, APHIS or the designee, and the written approval must accompany the reimbursement in accordance with Departmental policy, Treasury’s Policy Directive, and the FMS Cashiers Manual.

## 6. RESPONSIBILITIES

a. Principal, Alternate, and Sub-Cashiers. Principal, alternate, and sub-cashiers are personally liable for all cash maintained in their specific fund. Cashiers must ensure that:

  - b The cashier will change the safe combination annually or when there has been a change of cashier or the safe combination has been compromised.
  - c Cashiers must work from separate cash lockboxes or safes.
  - d Separate cash lockboxes or safes must be provided for alternates and sub-cashiers.
