The attending veterinarian shall establish, maintain, and supervise programs of disease control and prevention, pest and parasite control, pre-procedural and post-procedural care, nutrition, euthanasia, and adequate veterinary care for all dogs on the premises of the licensee/registrant. The program of veterinary care must include regularly scheduled visits, not less than every 12 months, by the attending veterinarian to all premises where animals are kept.

By law, such programs must comply with the Animal Welfare Act and Title 9 C.F.R., Chapter 1, Subchapter A, §§ 3.13 and 2.33 or 2.40. This includes, but is not limited to:

- Ensuring the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries.
- Ensuring the availability of emergency, weekend, and holiday care.
- Ensuring daily observation of all animals to assess their health and well-being and a mechanism of direct and frequent communication so that timely and accurate information on problems of animal health, behavior, and well-being is conveyed to the attending veterinarian.
- Ensuring adequate guidance to personnel involved in the care and use of animals regarding handling, immobilization, anesthesia, analgesia, tranquilization, and euthanasia; and adequate pre-procedural and post-procedural care in accordance with established veterinary medical and nursing procedures.

Dealers, exhibitors, and research facilities must keep medical records for dogs and make the records available for APHIS inspection.
