

Quick update on what we have learned from OCFO regarding the GAO workforce initiative for monitoring & evaluating procedures for training the grants work force.

We've learned the "Departmental Regulation" is now called "guidance" but will have the same force and effect the regulation did.

All individuals identified as part of the grants workforce will have the mandatory Tier 1 training assigned automatically in agLearn. This should happen within the next month or sooner.

As more information is provided to us by OCFO we will share with you.
