BE A BEETLE BUSTER FAMILY
The Asian longhorned beetle (ALB) hurts our trees and our communities. People like you helped get rid of the ALB in Illinois and New Jersey. Now it’s your turn!

BINGO SEARCH

Work as a team to beat the ALB at its own game! Can your family find a whole row and get a “bingo”? Take this board with you when you go outside, and keep track of what you find. You can play all year-round!

<table>
<thead>
<tr>
<th>An insect on a tree</th>
<th>People searching for ALBs</th>
<th>Host Tree: Maple</th>
<th>Park ranger or landscaper Ask about the ALB!</th>
</tr>
</thead>
<tbody>
<tr>
<td>ALB Look-alike: Whitespotted Sawyer</td>
<td>Host Tree: Willow</td>
<td>Any beetle, like a ladybug, that has a hard covering over its wings</td>
<td>Host Tree: Horse Chestnut</td>
</tr>
<tr>
<td>Host Tree: Elm</td>
<td>People planting non-host trees</td>
<td>A hole in a tree</td>
<td>Non-Host Tree: Oak</td>
</tr>
<tr>
<td>People using firewood where they cut it</td>
<td>ALB Look-alike: Eyed Elater</td>
<td>Non-Host Tree: Pine</td>
<td>ALB Look-alike: Western Conifer Seed Bug</td>
</tr>
</tbody>
</table>

INSTANT WINNER!

If you find any of these signs and report online, you immediately win the game! Start the game again and keep playing. You can see the ALB from June – October, but you can spot the signs year-round!

REPORT IT! REPORT IT! REPORT IT!

<table>
<thead>
<tr>
<th>Asian longhorned beetle</th>
<th>Round exit holes</th>
<th>Egg sites on bark</th>
<th>Frass (wood shavings) on bark or at tree base</th>
</tr>
</thead>
<tbody>
<tr>
<td>Larvae in chopped wood</td>
<td>Pupae in chopped wood</td>
<td>REPORT IT! REPORT IT! REPORT IT!</td>
<td></td>
</tr>
</tbody>
</table>

BONUS POINTS

Play “I See My Tree!”
Each person in your family chooses one tree from the board. If you see your tree, you get a point. If someone else in your family sees your tree first, they get the point!

Grab your “Search and Report” kit and hunt for the ALB!

The ALB ID Card (Download at www.AsianLonghornedBeetle.com) shows you what to look for and how to report what you find.

A camera or cell phone to snap pictures of signs of the ALB

A jar or plastic container with a lid to collect beetles

Binoculars, if you have them, to look high in the trees

ALB ... What Do You See?

What’s black-and-white and hurts our trees?
A) A penguin with a chainsaw
B) The Asian longhorned beetle
C) A fire-starting zebra
D) All of the above!

Come up with your own ALB joke!

True or False?
The ALB is an invasive species.
True. The ALB came here from Asia, and it is hurting our trees.

What’s the best way to stop the ALB?
A) Use a Stop sign.
C) Tell it to stop bugging you.
D) Text the ALB that you’ll BRB.

Brain Teaser

ACROSS
1  The ALB likes this host tree. (Hint: You may like this tree’s syrup!)
3  Do you search and report? Then you are one of these!
8  This host tree starts and ends with the same letter
9  The _____ chestnut is a type of host tree
12  Any tree where the ALB lives
13  ALB is an invasive ______
15  What you do BEFORE #7 down

DOWN
2  Nickname for the Asian longhorned beetle
4  A sign of the female ALB, found on the bark
5  Adult beetles leave through a round _____ hole
6  It’s up to us to _____ the ALB!
7  Did you spot an ALB? This is what you do next!
10  Wood shavings, a sign of ALB
11  This government office is tracking the ALB
14  A host tree with oval, pointed leaves

Unscramble the circled letters to finish this sentence:

Stopping the ALB is a ____ ____ ____ ____ effort!
