Notes

- This certificate is meant for dogs (Canis lupus familiaris), cats (Felis silvestris catus) and ferrets (Mustela putorius furo). (a)
- This certificate is valid for 10 days from the date of issue by the official veterinarian until the date of the documentary and (b) checks at the designated Union travellers' point of entry (available http://ec.europa.eu/food/animal/liveanimals/pets/pointsentry_en.htm).

In the case of transport by sea, that period of 10 days is extended by an additional period corresponding to the duration of the

For the purpose of further movement into other Member States, this certificate is valid from the date of the documentary and identity checks for a total of four months or until the date of expiry of the validity of the anti-rabies vaccination or until the conditions relating to animals less than 16 weeks old referred to in point II.3 cease to apply, whichever date is earlier. Please note that certain Member States have informed that the movement into their territory of animals less than 16 weeks old 11.3 not authorised. referred to point is You may wish to inquire http://ec.europa.eu/food/animal/liveanimals/pets/index_en.htm.

Part I:

Box I.5: Consignee: indicate Member State of first destination.

Box I.28: Identification system: select of the following: transponder or tattoo.

Identification number. indicate the transponder or tattoo alphanumeric code.

Date of birth/breed: as stated by the owner.

Part II:

Keep as appropriate.

The declaration referred to in point II.1 shall be attached to the certificate and comply with the model and additional requirements set out in Part 3 of Annex IV to Implementing Regulation (EU) No 577/2013.

The evidence referred to in point II.1 (e.g. boarding pass, flight ticket) and in point II. 2 (e.g. receipt of entry to the event, proof of membership) shall be surrendered on request by the competent authorities responsible for the checks referred to in point (b) of the Notes.

Any revaccination must be considered a primary vaccination if it was not carried out within the period of validity of a previous

The declaration referred to in point II.3.2 to be attached to the certificate complies with the format, layout and language requirements laid down in Parts 1 and 3 of Annex I to Implementing Regulation (EU) No 577/2013.

A certified copy of the identification and vaccination details of the animals concerned shall be attached to the certificate.

The third option is subject to the condition that the owner or the natural person referred to in point II.1 provides, on request by the competent authorities responsible for the checks referred to in point (b), a declaration stating that the animals have had no contact with animals of species susceptible of rabies and remain secure within the means of transport or the perimeter of an international airport during the transit through a territory or a third country other than those listed in Annex II to Implementing Regulation (EU) No 577/2013. This declaration shall comply with the format, layout and language requirements set out in Parts 2 and 3 of Annex I to Implementing Regulation (EU) No 577/2013.

(8) The rabies antibody titration test referred to in point II.3.1:

- must be carried out on a sample collected by a veterinarian authorised by the competent authority, at least 30 days after the date of vaccination and three months before the date of import;
- must measure a level of neutralising antibody to rabies virus in serum equal to or greater than 0.5 IU/ml;
- must be performed by a laboratory approved in accordance with Article 3 of Council Decision 2000/258/EC (list of approved laboratories available at

 $\underline{http://ec.europa.eu/food/animal/liveanimals/pets/approval en.htm});$
