You must complete all fillable fields. Do not complete fields with asterisks (****) or diagonal line outs. Failure to accurately complete all required fields may delay endorsement by your USDA Endorsement Office.

1. Consignor:
   - Name and address of the pet owner/exporter in the United States (U.S.)

2. Consignee:
   - Name and address of the pet owner/importer in the destination country
   - Must include the destination country's name

3. Country Of Origin:
   - USA

4. State Of Origin:
   - U.S. state/territory where the pet currently resides

5. Country Of Destination:
   - Country to which the pet will be moved

6. Zone Of Destination:
   - U.S. airport, sea port or land border port from which the pet is leaving

7. Place Of Origin:
   - U.S. address where the pet currently resides. This is not where the pet was born.

8. Port Of Embarkation / Border Crossing:
   - U.S. airport, sea port or land border port from which the pet is leaving.

9. Estimated Date Of Shipment:
   - Date the pet will depart the U.S.

10. Means Of Transport:
    - How the pet is traveling to the destination country (e.g., airplane)

11. Description Of Commodity:
    - Type of pet (common versus scientific name may be required)

12. CITES Permit Number:
    - Date you examined the pet before issuing the health certificate

13. Total Quantity:
    - Number of pets certified on this health certificate
    - Leave blank

14. Total Number Of Packages/Containers:
    - The number of shipping containers for transporting the pets on the health certificate to the destination country.

15. Identification / Seal Numbers:
    - The number located on the seal used to close the shipping container(s). If no seal is required, type "Not Applicable."

16. Additional Information:
    - Leave blank

17. Commodities Intended Use:
    - How the pet will be used in the destination country (e.g., as a pet).
    - If this is pre-printed on the health certificate, do not change it.

18. Type Of Admission:
    - How long the pet will reside in the destination country (e.g., permanent, temporary).
    - If this is pre-printed on the health certificate, do not change it.

19. Identification Of Commodities:
    - Complete the required information in each column for every pet included on the health certificate.

The above information must match the corresponding information on supporting documentation (e.g., rabies vaccination certificate).
Instructions for USDA Accredited Veterinarians:
Filling Out International Health Certificates for Pets

Certification Statements:

1. I have verified the presence of the microchip(s) listed in box 21.

2. The animal(s) has/have been found to be clinically healthy and free from observable cutaneous diseases.

Certification statements like these do not require any additional information. By issuing the health certificate, you are declaring the statements are true for the animal. If a statement will not be true at the time you issue the health certificate or by the time the animal arrives in the destination country, do not issue the health certificate.

6. Rabies vaccination requirements- Either:
   - The animals listed in box 21 above are younger than 3 (three) months of age and too young for rabies vaccination
   - OR
   - The animals listed in box 21 above have been vaccinated for rabies, as noted below, at least 1 month prior to import into Aruba and the period of validity for the vaccination has not elapsed. (Note: animals receiving booster (non-initial) rabies vaccinations may travel to Aruba without the 1 month waiting period, as long as the previous rabies vaccine is not expired at the time of booster.)

You must select the applicable statement. If neither statement is true, do not issue the health certificate.

<table>

</tbody>
</table>

Certification statements may require you to record information about required vaccinations, testing, and treatment. You must record all the information the destination country requires. Do not provide information beyond what is required. If you do not have the required information and cannot obtain it, do not issue the health certificate.
