

ANNEX -B-
UNIVERSAL IMPORT OPTION
KILN DRIED OR HEAT TREATED LOGS OR LUMBER

- (1) Debarked to the specifications of § 319.40-6(a) and (b).
- (2) Heat treated or kiln dried in accordance with 319.40-7 (c or d) prior to arrival. Cannot be commingled with other regulated materials unless all regulated articles in the same hold or container have been heat treated or kiln dried. Lumber on the vessel's deck must be in a sealed container unless it has been kiln dried.
- (3) Heat treated or kiln dried lumber must be marked by permanent marking on each piece of lumber or on the cover of bundles of lumber HT or KD respectively. Alternatively, the importer document accompanying the shipment must state that the logs or lumber has been heat treated or kiln dried in accordance with 319.40-7 (c or d).
- (4) All pallets and other regulated wood packing materials used in the shipment are subject to inspection and must conform to 7 CFR 319.40-3(b).

ANNEX -D-
TROPICAL HARDWOOD LOGS AND LUMBER
(GREATER THAN 15 PIECES; NOT DEBARKED)

- (1) In accordance with 319.40-5(c) must be fumigated in accordance with section 319.40-7(f)(1)(ii) prior to arrival.
- (2) All pallets and other regulated wood packing materials used in the shipment are subject to inspection and must conform to 7 CFR 319.40-3.

ANNEX -F-
TEMPERATE HARDWOOD LOGS AND LUMBER
(WITH OR WITHOUT BARK)

- (1) Not authorized from areas in Asia that are east of 60 degrees East Longitude and north of the Tropic of Cancer.
- 2) In accordance with 319.40-5(d), temperate hardwood logs must be fumigated as described in 319.40-7(f)(1)(i), T312, or (ii), T404 prior to arrival. Lumber must be fumigated as described in 319.40-7(f)(2), T404, prior to arrival.
- (3) All pallets and other regulated wood packing materials used in the shipment are subject to inspection and must conform to 7 CFR 319.40-3(b).

ANNEX -K-
UNIVERSAL IMPORT OPTION
WOOD & BARK CHIPS FROM TROPICAL PLANTATION GROWN TREES

In accordance with 319.40-6(c)(2)(i)(A), must be accompanied by an importer document stating that the chips were derived from live, healthy, tropical species of plantation grown trees grown in tropical areas. Chips must be free from rot at the time of importation.

Chips cannot be co-mingled with other regulated materials (other than solid wood packing materials) unless the chips and the other regulated articles are in separate holds or in separate sealed containers. Chips may be shipped on deck if no other regulated articles are present on the vessel and the chips are completely covered by a tarpaulin during the entire journey. Shipments with tarped chips must transit directly from the port of export to the United States.

Chips must be consigned to an approved facility operating under a valid compliance agreement with Plant Protection and Quarantine at the time the chips are imported. The name of the approved facility will be submitted and re-approved before importation occurs.

All pallets and other regulated wood packing materials used in the shipment are subject to inspection and must conform to 7 CFR 319.40-3(b).

ANNEX - K1-
PINUS RADIATA CHIPS FROM CHILE
EUCALYPTUS SPP. (TEMPERATE spp. ONLY) CHIPS FROM SOUTH AMERICA

(1) Accompanied by a certificate stating that the wood chips meet the following requirements.

Wood chips were treated with a surface pesticide treatment in accordance with 319.40-7(e) within 24 hours after the log was chipped and were retreated with a surface pesticide treatment in accordance with 319.40-7(e) if more than 30 days elapsed between the date of the first treatment and the date of export to the U.S.

Derived from live, healthy, plantation-grown trees grown trees that were apparently free of plant pests, plant pest damage, and decay organisms, and the logs used to make the wood chips were debarked in accordance with 319.40-7(b) before being chipped.

No more than 45 days elapsed from the time the trees used to make the wood chips were felled to the time the wood chips were exported.

(2) During shipment to the United States, no other regulated articles (other than solid wood packing materials) are permitted in the holds or sealed containers carrying the wood chips. Wood chips on the vessel's deck must be in a sealed container.

(3) Wood chips must be consigned to: (name and location), a PPQ approved facility in the U.S. which operates under a PPQ compliance agreement in accordance with Sec. 319.40-8.

(4) The wood chips must be processed within 45 days of arrival at the facility.

(5) All pallets and other regulated wood packing materials used in the shipment are subject to inspection and must conform to 7 CFR 319.40-3(b).

ANNEX -L-
UNIVERSAL IMPORT OPTION
WOOD AND BARK CHIPS (NOT FROM TROPICAL
PLANTATION GROWN TREES)

(1) In accordance with 319.40-6(c)(i)(B), must be fumigated as described in 319.40-7(f)(3), heat treated as described in 319.40-7(c), or heat treated with moisture reduction as described in 319.40-7(d). Cannot be commingled with other regulated materials (other than solid wood packing materials) unless the chips and the other regulated articles are in separate holds or in separate sealed container.

(2) All pallets and other regulated wood packing materials used in the shipment are subject to inspection and must conform to 7 CFR 319.40-3.
