

LBAM Monthly Stakeholder Conference Call – 2015

March 10, 2015

- CDFA reviewed current activity/new detection of LBAM within quarantined counties.
- CDFA reviewed status of PEA 43-2014, LBAM Nursery Stock Enforcement Improvements and answered questions about it. Implementation begins 1 April 2015.
- CDFA has developed a communication plan to provide timely notification to the Strawberry Commission regarding future cooler detections.
- PPQ PIM – Canadian Food Inspection Agency is still reviewing changes/updates to cut flower protocol, no decisions yet.
- PPQ-PM/ CDFA – The request to add wine grapes to the exempt commodities list will be reviewed and forwarded to PPQ Pest Epidemiology and Risk Analysis Laboratory (PERAL) for recommendation.
