

**Basis for changes to the Pale Cyst Nematode (PCN) Regulated Area
May 17, 2016**

The following change has been made to the PCN regulated area since the February 25, 2016, publication:

One field, approximately 75 acres, has been released from regulation under the Federal PCN Final Rule (effective April 29, 2009). The locations of field deregulated after completing a release protocol comprised of a sequence of surveys with negative laboratory results for PCN, in accordance with the Federal PCN Final Rule, subpart 301.86-3(d) (2) *Removal of fields from quarantine – Associated fields*, are as follows: Bingham County— T01S, R36E, Section 1.

This change brings the current regulated area to 9,853 acres, of which 2,897 acres are infested fields.
