

**Basis for changes to the Pale Cyst Nematode (PCN) Regulated Area
March 21, 2011**

Since the last update to the PCN Regulated Area on November 23, 2010, one 165-acre field has become regulated under the Federal PCN Final Rule (effective April 29, 2009) due to the detection of PCN in this field on March 18, 2011. This field is located in Bonneville County, within T01N, R37E, section 12.
