

**Basis for changes to the Pale Cyst Nematode (PCN) Regulated Area
June 3, 2011**

This publication of the PCN regulated area is a revision of the May 9th, 2011 publication. The discovery of additional field data has led to the addition of ~234 acres and the removal of ~637 acres of farmland from the regulated area. Fields were removed upon determination that they did not meet the definition of 'associated field' according to the PCN Final Rule (effective April 29, 2009), subpart 301.86-3(c)(2)(iii) *Criteria for designation of fields as infested fields and associated fields - Associated fields*. Fields were added that were found to have a primary association with an infested field. These changes result in a net reduction of 403 acres from the regulated area, bringing the current total to 7,405 acres, of which 1,264 acres are infested fields.

Locations of regulated fields in Bingham County:

T01N R36E sections 21, 22, 23, 25, 27, 33, 34, 36;

T01N R37E sections 16, 21, 22, 24, 26, 27, 28, 31, 33, 34, 35, 36;

T01S R37E sections 2, 3, 4, 9, 10, 11;

T02S R34E section 18;

T02S R35E sections 30, 31

Locations of regulated fields in Bonneville County:

T01N R37E sections 5, 11, 12, 14, 15;

T01N R38E sections 3, 8, 19, 20, 30;

T02N R38E sections 32, 36

T03N R37E sections 16, 21, 22
