

**Basis for changes to the Pale Cyst Nematode (PCN) Regulated Area  
December 15, 2017**

The following changes have been made to the PCN regulated area since the December 4, 2017 publication:

Approximately 399 acres have been released from regulation under the Federal PCN Final Rule (effective April 29, 2009). The locations of the fields, deregulated after completing a release protocol comprised of a sequence of surveys with negative laboratory results for PCN, and in accordance with the Federal PCN Final Rule subpart 301.86-3(d)(2) *Removal of fields from quarantine – Associated fields*, are as follows: Bingham County – T 02 S, R 37 E, Section 7; Bonneville County – T 01 N, R 38 E, Sections 5, 19 and 20.

With these changes applied, the current regulated area is 8,442 acres, of which 3,043 acres are infested fields.
