# Export Animal Products to Latvia

Last Modified:

Animal Product Export Requirements

- Select a Country - ▼

[Go](#)

---

This country is a member state of the European Union. In addition to any commodity-specific information listed on this page, the European Union has harmonized requirements for certain animal-origin products. Visit [Export Animal Products to the European Union](#) to learn more about harmonized protocols.

## Determining Which Certification Requirements Apply

**Exporters should always have their importers confirm BEFORE shipment that the consignment will be allowed entry with only the documentation accompanying the consignment.** If there is any doubt about European Union or Country requirements a consignment will fall, or when requirements are not listed, the U.S. exporter should have this country's importer email the pertinent border inspection post (BIP) through which the consignment will enter **the importing country**. The email should include a description of the proposed import, including the animal-origin contents and the intended use of the material **in the importing country**. The BIP will respond to the importer in writing. The U.S. exporter should then obtain that response from the importer and provide it and a translation of it (including the original email question) to their local [VS Field Operations Veterinary](#)
