Export Live Animals to Aruba

Last Modified:

Green Banner Country

For Accredited Veterinarians: Electronic signature ACCEPTED

For APHIS VMO: Digital endorsement ACCEPTED

Save Time and Money With VEHCS!

USDA-accredited veterinarians can submit health certificates for electronic signature through VEHCS (Veterinary Export Health Certification System).

Learn More

Accredited Veterinarians can submit health certificates for USDA endorsement electronically through VEHCS (Veterinary Export Health Certification System).

This country **accepts USDA *digital endorsement***. This means the final, endorsed health certificate that travels with the animal(s) can be printed out directly from

VEHCS and does NOT have to be mailed back to you.

Live Animal Export Country Requirements - Select a Country - ▼

[View Requirements]

Summary of Requirements

Please Note: In order to import live animals into Aruba, the consignee must have the Health Certificate and/or related test results approved by the Director of the Veterinary Service of Aruba before the animals are shipped to Aruba. The Veterinary Service of Aruba may be reached by telephone at: +297 5850400; by FAX at: +297 5851828 or email vetservice@aruba.gov.aw.

Please Note: To export CITES-listed animals (e.g. Cockatoos or Parrots) to Aruba, they must be bred in captivity and must have a health certificate issued by a licensed veterinarian. To check whether an animal is listed under CITES you can visit http://www.cites.org/ or contact the CITES Management Authority for Aruba at vetservice@aruba.gov.aw

Equine

- [Equine - Breeding - Permanent - Protocol](#) (108.81 KB) - December 2008

Cattle

- [Bovine - Protocol](#) (20.23 KB) - August 2009

Poultry

- [Ratites - Hatching Eggs - Protocol](#) (12.71 KB) - May 2011

Sheep and Goats

- [Sheep - Protocol](#) (85.71 KB) - July 2003
- [Goats - Protocol](#) (40.9 KB) - August 2013

Swine

- [Swine - Protocol](#) (69.73 KB) - November 2004

Other Animals

Note: *Aruba applies the following guidelines to evaluate import permits for exotics, i.e. fauna (animals) not occurring naturally on the island:*

1. The intrinsic value of the animal should not be jeopardized.
2. Public health should not be endangered in any way.
3. The risk of the animal being/becoming an invasive species must be considered nil.

- [Camelids - Protocol](#) (16.95 KB) - June 2012

Pets

Visit the [APHIS Pet Travel Website](#) for information about exporting your pets.

If your species is not listed, the requirements for that species are not known. Exporters who want to ship livestock or germplasm whose requirements are not listed above should have the importer or buyer in the destination country apply for an import permit at the appropriate ministry. This import permit will most likely outline the specific requirements.

Need Help?

Export Trade Services (by State)

APHIS has animal health officials available nationwide with expertise in export requirements for animals. Contact your nearest office for questions about endorsing an export or health certificate for live animals.
