Export Live Animals to Russian Federation

Last Modified:

Electronic Signature ACCEPTED; Original Ink Endorsement REQUIRED

For Accredited Veterinarians: Electronic signature ACCEPTED

For APHIS VMO: Original ink endorsement REQUIRED

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for endorsement.

USDA must ink-sign and emboss the health certificate.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about how to issue export health certificates.

Animal Owners/Shippers: You can arrange to have your health certificate returned by mail (a prepaid, preaddressed return label must be provided during

certificate submission). The endorsed health certificate—ink-signed and embossed—must accompany the animal(s) during shipment or travel.

Requirements			

Summary of Requirements

NOTE: The Federal Service for Veterinary and Phytosanitary Surveillance (VPSS) of the Russian Federation imposed temporary restrictions on the transit of FMD susceptible animals through the Germany and Hungary to the Russian territory, due to foot-and-mouth disease (FMD) outbreaks.

Expand All

Equine

Note: Effective August 27, 2014, there is a temporary restriction on animals from Colorado and Texas due to the ongoing outbreak of vesicular stomatitis. Russia has prohibited the U.S. export of horses or other single-hoofed ungulates, cattle, sheep, goats, pigs and semen and embryos of these species. Also included in the restriction are wild, zoo, and circus animals susceptible to vesicular stomatitis.

Note: Effective September 5, 2012, Russia has banned U.S. export of horses, cattle, sheep, swine, and semen and embryos from donors in Mora County, New Mexico.

- Horses Permanent Health Certificate (343.19 KB) May 2008
- Horses Temporary Health Certificate (257.69 KB) May 2008

Cattle

Note: Regarding vesicular stomatitis virus, the Veterinary and Phytosanitary Surveillance Service (VPSS) of the Russian Federation has placed restrictions on the export of U.S. origin horses or other single-hoofed ungulates, cattle, sheep, goats, pigs and semen and embryos of these species, including wild, zoo, and circus animals, from the following states and counties to the Russian Federation:

- August 5, 2005 -Yellowstone County, Montana and Sablet County, Wyoming
- May 5, 2005 Grant County, New Mexico
- August 31, 2012 Mora County, New Mexico
- July 7, 2014 San Patricia County and Nueces County, Texas
- August 27, 2014 the entire states of Colorado and Texas

Note: USDA APHIS strongly recommends U.S. exporters test ruminants during the pre-export isolation for bluetongue virus using PCR test methods, regardless of the status of the premises of origin as referred to in Item 3.2.2. of the model health certificate.

- <u>Cattle Questions and Answers for Export Health Certificate Guidance</u> <u>Document</u> (17.77 KB) - August 2012
- Cattle Breeding Health Certificate (247.76 KB) May 2008
- Bovine Embryos Health Certificate (280.14 KB) May 2008
- Bovine Semen Health Certificate (227.99 KB) February 2006

Sheep and Goats

Note: Regarding vesicular stomatitis virus, the Veterinary and Phytosanitary Surveillance Service (VPSS) of the Russian Federation has placed restrictions on the export of U.S. origin horses or other single-hoofed ungulates, cattle, sheep, goats, pigs and semen and embryos of these species, including wild, zoo, and circus animals, from the following states and counties to the Russian Federation:

- August 5, 2005 -Yellowstone County, Montana and Sablet County, Wyoming
- May 5, 2005 Grant County, New Mexico
- August 31, 2012 Mora County, New Mexico
- July 7, 2014 San Patricia County and Nueces County, Texas

• August 27, 2014 – the entire states of Colorado and Texas

Note: USDA APHIS strongly recommends U.S. exporters test ruminants during the pre-export isolation for bluetongue virus using PCR test methods, regardless of the status of the premises of origin as referred to in Item 3.2.2. of the model health certificate.

• Sheep and Goats - Breeding - Health Certificate (210.24 KB) - February 2010

Swine

Note: Effective May 30, 2014, Russia has banned import of live pigs from the United States due to the detection of Porcine Epidemic Diarrhea (PED). (Confirmed: June 22, 2021)

Poultry and Birds

Effective July 24, 2024, **ALL U.S. POULTRY** exports and transits to and through Russia, are temporarily restricted.

If your species is not listed, the requirements for that species are not known. Exporters who want to ship livestock or germplasm whose requirements are not listed above should have the importer or buyer in the destination country apply for an import permit at the appropriate ministry. This import permit will most likely outline the specific requirements.
