Export Live Animals to Serbia

Last Modified:

Electronic Signature **ACCEPTED**; Original Ink Endorsement **REQUIRED**

For Accredited Veterinarians: Electronic signature **ACCEPTED**

For APHIS VMO: Original ink endorsement **REQUIRED**

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for endorsement.

USDA must ink-sign and emboss the health certificate.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: You can arrange to have your health certificate returned by mail (a prepaid, preaddressed return label must be provided during certificate submission). The endorsed health certificate—ink-signed and embossed—must accompany the animal(s) during shipment or travel.

Live Animal Export Country Requirements

- Select a Country -  [View Requirements](#)

Summary of Requirements

The Minister of Agriculture, Forestry and Water Management of the Republic of Serbia has imposed restrictions on the import and transit of shipments from Germany and Hungary, due to recent foot-and-mouth disease (FMD) outbreaks in Europe. This includes all live animals and germplasm.
