NVAP Reference Guide - WOAAH and International Standards

Last Modified:

NVAP Reference Guide: Table of Contents

[Preface](#)

[Introduction](#)

Control and Eradication

- [Brucellosis](#)
- [Johne's Disease](#)
- [Pseudorabies \(PRV\)](#)
- [Tuberculosis](#)
- [Transmissible Spongiform Encephalopathies](#)
- [Scrapie](#)
- [Bovine Spongiform Encephalopathy \(BSE\)](#)
- [Chronic Wasting Disease \(CWD\)](#)

Poultry

- [National Poultry Improvement Plan \(NPIP\)](#)
- [Avian Influenza \(AI\)](#)
- [Exotic Newcastle disease \(END\)](#)
- [Equine Disease](#)

Aquatic Animal

- [Aquatic Animal National Health Plan](#)
- [Aquatic Animal Health Activities](#)

Animal Health Emergency Management

- [Animal Health Emergency Management](#)
- [Emergency Response Structure](#)
- [National Response Framework \(NRF\)](#)
- [National Incident Management System \(NIMS\)](#)
- [National Animal Health Emergency Management System \(NAHEMS\)](#)
- [Foreign Animal Disease Preparedness and Response Plan \(FAD PReP\)](#)
- [FAD Recognition and Initial Response](#)
- [National Animal Health Emergency Response Corps \(NAHERC\)](#)
- [Notifiable Diseases and Conditions](#)
- [WOAH and International Standards](#)
- [Cleaning and Disinfection](#)
 - [Importance of Cleaning & Disinfection](#)
 - [Cleaning](#)
 - [Disinfection](#)
 - [Regulation of Disinfectants](#)
 - [Safety](#)
- [Disease Surveillance](#)
- [Laboratory Submissions](#)

Animal Movement

- [Interstate Regulations](#)
- [Interstate Movement of Cattle, Horses, Swine, Sheep and Goats](#)
- [Issuing Interstate Animal Movement Documents](#)
- [International Animal Movement](#)
- [Issuing International Health Certificates \(IHCs\) for Live Animal Movement](#)
- [Common Problems Observed on Certificates for Live Animal Movement](#)

Animal Identification

- [Animal Identification](#)
- [Cattle Identification](#)

- [Swine Identification](#)
- [Equine Identification](#)
- [Sheep and Goat Identification](#)
- [Fowl Identification](#)
- [Compliance and Regulations](#)

Appendix

- [A: 9 CFR PARTS 160, 161, and 162](#)
- [B: APHIS VS District Offices](#)
- [C: State Animal Health Officials](#)
- [D: Forms](#)
- [E: Other Organizational Information with Contact Points](#)
- [F: Web Sites](#)
- [G: Equine Teeth and Aging](#)

The Office International des Epizooties (OIE) was established in Paris, France, in 1924 with the signing of an international agreement by 28 countries. In 2003 the Office became the World Organization for Animal Health (WOAH), and as of May 2022, it will no longer be known as OIE but WOAH. As of 2011, the WOAH has 178 Member Countries and Territories, each of which is represented by a delegate who, in most cases, is the Chief Veterinary Officer of the country.

The WOAH is the intergovernmental organization responsible for improving animal health worldwide and has six primary missions:

1. to ensure transparency in the global animal disease situation;
2. to collect, analyze, and disseminate scientific veterinary information;
3. to encourage international solidarity in the control of animal diseases;
4. to safeguard world trade by publishing health standards for international trade in animals and animal products (within its mandate under the World Trade Organization, Sanitary and Phytosanitary Agreement);
5. to improve the legal framework and resources of national veterinary services;
and
6. to provide a better guarantee of the safety of foods of animal origin and to promote animal welfare through a science-based approach.

One of WOAAH's important missions is to improve knowledge, as well as the transparency, of the world animal health situation. Members are obligated to report disease events of animal health significance. To achieve this, the WOAAH developed and manages a web-based reporting system called the World Animal Health Information System (WAHIS). Through the WAHIS Members must report to the WOAAH all notifiable terrestrial and aquatic animal diseases detected within their respective territories. This information then becomes immediately available to the world so that countries can take any necessary preventive action. As an WOAAH Member the United States takes its commitment to disease reporting seriously and responsibly. WOAAH maintains a list of notifiable diseases that is updated annually.

The following diseases are currently included in the list.

Terrestrial Animal Diseases

Multiple Species Diseases

- Anthrax
- Aujeszky's disease (pseudorabies)
- Bluetongue
- Brucellosis (*Brucella abortus*)
- Brucellosis (*Brucella melitensis*)
- Brucellosis (*Brucella suis*)
- Crimean Congo haemorrhagic fever
- Echinococcosis/hydatidosis
- Epizootic haemorrhagic disease
- Equine encephalomyelitis (Eastern)
- Foot-and-mouth disease
- Heartwater
- Japanese encephalitis
- Leptospirosis
- New world screwworm (*Cochliomyia hominivorax*)
- Old world screwworm (*Chrysomya bezziana*)
- Paratuberculosis
- Q fever
- Rabies

- Rift Valley fever
- Rinderpest
- Surra (*Trypanosoma evansi*)
- Trichinellosis
- Tularemia
- Vesicular stomatitis
- West Nile fever

Cattle Diseases

- Bovine anaplasmosis
- Bovine babesiosis
- Bovine genital campylobacteriosis
- Bovine spongiform encephalopathy
- Bovine tuberculosis
- Bovine viral diarrhea
- Contagious bovine pleuropneumonia
- Enzootic bovine leukosis
- Hemorrhagic septicemia
- Infectious bovine rhinotracheitis/infectious pustular vulvovaginitis
- Lumpy skin disease
- Theileriosis
- Trichomonosis
- Trypanosomosis (tsetse-transmitted)

Sheep and Goat Diseases

- Caprine arthritis/encephalitis
- Contagious agalactia
- Contagious caprine pleuropneumonia
- Enzootic abortion of ewes (ovine chlamydiosis)
- Maedi-Visna
- Nairobi sheep disease
- Ovine epididymitis (*Brucella ovis*)
- Peste des petits ruminants
- Salmonellosis (*S. abortusovis*)

- Scrapie
- Sheep pox and goat pox

Equine Diseases

- African horse sickness
- Contagious equine metritis
- Dourine
- Equine encephalomyelitis (Western)
- Equine infectious anemia
- Equine influenza
- Equine piroplasmiasis
- Equine rhinopneumonitis
- Equine viral arteritis
- Glanders
- Venezuelan equine encephalomyelitis

Swine Diseases

- African swine fever
- Classical swine fever
- Nipah virus encephalitis
- Porcine cysticercosis
- Porcine reproductive and respiratory syndrome
- Swine vesicular disease
- Teschovirus encephalomyelitis (under study)
- Transmissible gastroenteritis

Avian Diseases

- Avian chlamydiosis
- Avian infectious bronchitis
- Avian infectious laryngotracheitis
- Avian mycoplasmosis (*Mycoplasma gallisepticum*)
- Avian mycoplasmosis (*Mycoplasma synoviae*)
- Duck virus hepatitis

- Fowl cholera
- Fowl typhoid
- Highly pathogenic avian influenza in birds
- Low pathogenicity notifiable avian influenza in poultry
- Infectious bursal disease (Gumboro disease)
- Marek's disease
- Newcastle disease
- Pullorum disease
- Turkey rhinotracheitis

Lagomorph Diseases

- Myxomatosis
- Rabbit hemorrhagic disease

Bee Diseases

- Acarapisosis of honey bees
- American foulbrood of honey bees
- European foulbrood of honey bees
- Small hive beetle infestation (*Aethina tumida*)
- *Tropilaelaps* infestation of honey bees
- Varroosis of honey bees

Other Diseases

- Camel pox
- Leishmaniosis

Aquatic Animal Diseases

Fish Diseases

- Epizootic hematopoietic necrosis
- Epizootic ulcerative syndrome
- Gyrodactylosis (*Gyrodactylus salaris*)
- Infectious hematopoietic necrosis

- Infectious salmon anemia
- Koi herpesvirus disease
- Red sea bream iridoviral disease
- Spring viremia of carp
- Viral hemorrhagic septicemia

Mollusc Diseases

- Infection with abalone herpes-like virus
- Infection with *Bonamia exitiosa*
- Infection with *Bonamia ostreae*
- Infection with *Marteilia refringens*
- Infection with *Perkinsus marinus*
- Infection with *Perkinsus olseni*
- Infection with *Xenohaliotis californiensis*

Crustacean Diseases

- Crayfish plague (*Aphanomyces astaci*)
- Infectious hypodermal and hematopoietic necrosis
- Infectious myonecrosis
- Necrotising hepatopancreatitis
- Taura syndrome
- White spot disease
- White tail disease
- Yellow head disease

Amphibian Diseases

- Infection with *Batrachochytrium dendrobatidis*
- Infection with ranavirus
