PCIT

Last Modified:

The Phytosanitary Certificate Issuance and Tracking (PCIT) system tracks the inspection of agricultural commodities and certifies compliance with plant health standards of importing countries. This capability provides USDA/APHIS/PPQ better security, reporting functions, and monitoring capabilities for exported commodities.

Phytosanitary Certificate Issuance and Tracking (PCIT) System

Access to the [PCIT system](#) is available nationwide. However, not all locations are currently using the system. Please check with local phytosanitary authorities before submitting applications through the PCIT system. For further information on the PCIT system, click on the "Contact Us" link located at the bottom right of each PCIT screen.
