Report Signs of Citrus Disease

Last Modified:

[Print](#)

IS YOUR CITRUS SICK?

By reporting signs of citrus disease, you're helping save our citrus! The symptom checklist and corresponding photos below will help you identify the key symptoms of a plant infected by citrus greening, citrus canker, citrus black spot and sweet orange scab.

If you think you have identified an infected plant, report it immediately. To avoid spreading the disease, do not move your plant. Just fill out the form below or call your [USDA State Plant Health Director's office](#).

If you are younger than 18 years of age, please ask a parent, guardian or trusted adult to help you submit your report.

Thanks again for helping stop the spread of citrus disease!
