National Environmental Policy Act Documents: Plant Protection and Quarantine

Last Modified:

In planning and conducting program activities, Plant Protection and Quarantine (PPQ) follows the National Environmental Policy Act (NEPA) and the NEPA procedures at APHIS.

Learn More About NEPA Procedures at APHIS

PPQ NEPA Documents

For easy reference, we make final NEPA documents available below, organized by topic (pest, disease, or commodity) and State. These include final environmental assessments, environmental impact statements, findings of no significant impact (or "FONSIs"), and records of decision from the past 7 years. Many of these documents are also available at regulations.gov.

Please contact aphisweb@usda.gov to request archived documents older than 7 years.
