Soil

Last Modified:

Soil is strictly controlled under APHIS quarantine regulations 7 CFR 330 because it can readily provide a pathway for the introduction of a variety of dangerous organisms into the United States.

Importing soil into the United States from foreign sources is prohibited. Moving soil within the continental United States is restricted unless authorized by APHIS under specific conditions, safeguards, and controlled circumstances described in a permit and/or compliance agreement.

Use PPQ Form 525-A, Application for Permit To Receive Soil or PPQ Form 526, Application for Permit To Move Live Plant Pests, Biological Control Agents, or Noxious Weeds.

[Hand-Carry Conditions](#)

[View information related to hand-carry conditions for all authorized soil hand carry events.](#)

[Foreign Soil Under 3 Pounds](#)

[APHIS can issue a permit usually within 2 weeks if the applicant requests authorization for less than three pounds of soil \(per shipment\), and the soil can be heat sterilized by PPQ at ports with appropriate facilities.](#)

[Foreign Soil Over 3 Pounds](#)

[Soil that cannot be treated at the port of entry may be allowed to move to a facility approved in advance and authorized under a permit issued by PPQ. Specific safeguard provisions are described in the permit and compliance agreement with the facility.](#)

[Domestic Soil](#)

Soil from Guam, Hawaii, Puerto Rico, and the U.S. Virgin Islands is handled as foreign soil and authorized movement into the continental United States under the provisions described for foreign soil.

Isolating Organisms From Soil

APHIS may authorize soil imports for the purpose of isolating organisms if the soil is handled and treated as prescribed in an APHIS permit.

Importing Soil Amendments

Permits or other documentation may be required for entry of these products into the United States from foreign countries.

Canadian Soil

Soil cannot enter the United States if from the following areas:

- **Alberta:** A farm unit and associated land located near the municipality of Fort Saskatchewan; and a farm unit and associated land located near the municipality of Spruce Grove.
- **British Columbia:** That portion of the municipality of Central Saanich on Vancouver Island, east of the west Saanich Road.
- **Newfoundland and Labrador:** The entire Island of Newfoundland.
- **Prince Edward Island**
- **Quebec:** The municipality of Saint- Amble.

Soil from other parts of Canada imported into the United States is subject only to inspection and verification of origin.
