Importing Camelids (Camels, Llamas, Alpacas and Guanacos) into the United States

Last Modified:

USDA APHIS regulates the importation of all ruminants and their germplasm (embryos/oocytes, semen, cloning tissue) to prevent the spread of animal diseases. **Ruminants** include all animals which chew the cud, such as cattle, buffaloes, sheep,

goats, deer, antelopes, camels, llamas and giraffes.

View Countries From Which Camelids and Their Germplasm May Be Imported

Farmed camelids may only be imported from the countries listed on this page.

Live Camelids

Australia; a permit and export health certificate are required.

- Import protocol and health certification are being updated.

Canada

- Protocol Domestic Camelids from Canada (335.16 KB) - *2020*
- Health Certificate for the Export of Domestic Camelidae from Canada to the United States (295.19 KB)

What You Need To Know

- U.S. transits are classified as shipments presented to a U.S. port of entry for conveyance purposes to then be transported to a destination country shortly after.
    - Notice Regarding APHIS Live Animal Import and Third-Country Import Transit Permits
- Please note that any animals and their germplasm transiting the United States must not transit countries with questionable disease statuses prior to reaching a U.S. port of entry.
- All transits require a contingency plan. Submit your contingency plan with your permit application (VS 17-129 (211.74 KB)) to laipermits@usda.gov. To submit an import permit electronically, visit APHIS eFile.
- If you are applying to import live animals, semen, and embryos, you may submit applications by email to laipermits@usda.gov.
