Pet Travel From the United States to Bermuda

Last Modified:

Electronic Signature **ACCEPTED**; Original Ink Endorsement **REQUIRED**

For Accredited Veterinarians: Electronic signature **ACCEPTED**

For APHIS VMO: Original ink endorsement **REQUIRED**

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for endorsement.

USDA must ink-sign and emboss the health certificate.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: You can arrange to have your health certificate returned by mail (a prepaid, preaddressed return label must be provided during

certificate submission). The endorsed health certificate—ink-signed and embossed—must accompany the animal(s) during shipment or travel.

Electronic Signature and Digital Endorsement ACCEPTED

For Accredited Veterinarians: Electronic signature ACCEPTED

For APHIS VMO: Digital endorsement ACCEPTED

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for digital endorsement.

USDA can digitally endorse the health certificate and return it electronically.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: The endorsed health certificate can be printed out directly from VEHCS and does **not** have to be mailed back to you. The printed, endorsed health certificate must accompany the animal(s) during shipment or travel.

Electronic Signature ACCEPTED; Digital Endorsement for SOME COMMODITIES ONLY

For Accredited Veterinarians: Electronic signature ACCEPTED

For APHIS VMO: Digital endorsement for SOME COMMODITIES ONLY

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for endorsement.

Digital endorsement varies by species—see requirements on this page for details. The health certificate either bears the original ink signature and embossed seal **or** digital signature/seal.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: Digitally endorsed health certificates can be printed out directly from VEHCS. For non-digitally endorsed health certificates, you can arrange to have your health certificate returned by mail (a prepaid, preaddressed return label must be provided during certificate submission). A paper version of the endorsed health certificate must accompany the animal(s) during shipment or travel.

Travel Requirements Based on Pet Type

Carefully read ALL of the requirements related to your pet on this page.

- This page provides the most recent entry requirements and can change without notice.
- It is the responsibility of the veterinarian to make sure the pet has met all health requirements of the destination country before issuing a health certificate.
- Failure to meet the requirements may result in problems gaining certificate endorsement or difficulties upon arrival in the destination country.
- Health certificates must be legible, accurate, and complete.

[Expand All](#)

Dogs and Cats

Bermuda does not allow certain dogs breeds. [Click here](#) for a list of restricted and prohibited breeds.

The requirements for traveling with your pet are described in the provided health certificate. The health certificate must be issued by a licensed veterinarian. USDA endorsement is NOT required.

All animals arriving in Bermuda must be accompanied by an [Import Permit](#) issued in advance by the [Department of Environmental Protection](#), together with an original of a health certificate issued by a licensed veterinarian of the country from which the animal is coming. **The health certificate and veterinary statements must be issued within 10 days before the animal's arrival.**

Specific Requirements:

- The animal has been implanted with a microchip read by a standard microchip reader (i.e. ISO, FECAVA, European/International or AVID-USA chip).
- Veterinarians **may only** attest to vaccinations given by him/herself, given under his/her direct supervision, and prior vaccinations that are accompanied with original certificates. Veterinarians **cannot** attest to vaccines given by non-veterinarians, including owners or breeders.
- When requested by Bermuda, you will be required to give information regarding the purpose of imported animal, and the location of facility where the animal(s) will be housed.

THE PROCEDURE

- Visit your veterinarian to obtain a microchip, health certificate and the veterinary statements within **10 days** of your arrival.
- FAX the veterinary documents to 441-232-0046. Response with an Import Permit will be by FAX, usually within 1 business day. Please ensure that your FAX number is shown on the application form. The **FAX** Import Permit and the **ORIGINAL** veterinary certificates **MUST** accompany the animal on arrival in

Bermuda.

IMPORT PERMITS ARE **ONLY VALID FOR 10 DAYS** FROM THE DATE OF THE VETERINARY CERTIFICATE.

* Northern Ireland is part of the United Kingdom (UK), but will continue to follow European Union (EU) requirements even though the UK is no longer part of the EU.

** Norway and Switzerland are **not** part of the EU but have adopted EU legislation for import of most species of live animals.

Important Travel Considerations

Considerations for airline travel and cruises:

Airlines and shipping lines have their own policies and requirements for transporting pets. Check with your airline or shipping representative to determine what requirements they may have.

[Learn how you can improve the safety of dogs and cats during air travel.](#)

[View additional information for pet owners, airlines, and others about APHIS endorsement of international health certificates \(239.52 KB\).](#)

If pets or support animals accompany you on a cruise, you must comply with entry rules for **every** country or port where your pet or support animal exits the ship.

Will you be returning to the United States with your pet?

[View APHIS Requirements](#)

ALERT: CDC is the primary authority for dog imports. For requirements or questions

about dogs entering or returning to the United States, visit the [CDC website](#).

If you are transiting (passing through) the European Union:

If your pet is traveling through (transiting) a country in the European Union (EU) on the way to a third, non-EU country, you will also need a transit health certificate for your pet for the EU. The transit health certificate will be the same as if your pet's final destination was the EU country. Use the information and steps above under "Travel Requirements Based on Pet Type" to determine which health certificate should be used. [View a list of EU countries](#).
