Pet Travel From the United States to Curacao

Last Modified:

Electronic Signature **ACCEPTED**; Original Ink Endorsement **REQUIRED**

For Accredited Veterinarians: Electronic signature **ACCEPTED**

For APHIS VMO: Original ink endorsement **REQUIRED**

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for endorsement.

USDA must ink-sign and emboss the health certificate.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: You can arrange to have your health certificate returned by mail (a prepaid, preaddressed return label must be provided during

certificate submission). The endorsed health certificate—ink-signed and embossed—must accompany the animal(s) during shipment or travel.

Electronic Signature and Digital Endorsement ACCEPTED

For Accredited Veterinarians: Electronic signature ACCEPTED

For APHIS VMO: Digital endorsement ACCEPTED

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for digital endorsement.

USDA can digitally endorse the health certificate and return it electronically.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: The endorsed health certificate can be printed out directly from VEHCS and does **not** have to be mailed back to you. The printed, endorsed health certificate must accompany the animal(s) during shipment or travel.

Electronic Signature ACCEPTED; Digital Endorsement for SOME COMMODITIES ONLY

For Accredited Veterinarians: Electronic signature ACCEPTED

For APHIS VMO: Digital endorsement for SOME COMMODITIES ONLY

USDA-accredited veterinarians can electronically issue health certificates and use VEHCS (Veterinary Export Health Certification System) to submit them to USDA for endorsement.

Digital endorsement varies by species—see requirements on this page for details. The health certificate either bears the original ink signature and embossed seal **or** digital signature/seal.

What This Means for You

Accredited Veterinarians: Use the links below to access or get help with VEHCS. Learn more about [how to issue export health certificates](#).

Animal Owners/Shippers: Digitally endorsed health certificates can be printed out directly from VEHCS. For non-digitally endorsed health certificates, you can arrange to have your health certificate returned by mail (a prepaid, preaddressed return label must be provided during certificate submission). A paper version of the endorsed health certificate must accompany the animal(s) during shipment or travel.

Travel Requirements Based on Pet Type

Carefully read ALL of the requirements related to your pet on this page.

- This page provides the most recent entry requirements and can change without notice.
- It is the responsibility of the veterinarian to make sure the pet has met all health requirements of the destination country before issuing a health certificate.
- Failure to meet the requirements may result in problems gaining certificate endorsement or difficulties upon arrival in the destination country.
- Health certificates must be legible, accurate, and complete.

[Expand All](#)

Dogs and Cats

An Official International Health Certificate is required to travel with your dog or cat to Curacao.

The Health Certificate must be issued by an accredited veterinarian; endorsed by an official government (USDA) veterinarian; and is valid for no more than 2 (two) weeks.

- The animal must be vaccinated against Rabies at the age of at least 12 weeks with an inactivated vaccine at least 21 days but not longer than 12 months to 36 months (as registered by the manufacturer) prior to departure.
 - The importation of animals younger than 15 weeks is not permitted
- The animal must be identified by means of an ISO (International Standards Organization)-microchip (mention the number and date of the application on the health certificate).
- The animal must be free of any ecto parasites. Therefore it should be treated with an systemic/oral or topical ectoparasite product as instructed by the manufacturer, that has a long lasting persistent efficacy of at least 28 days, 14 days prior to departure (mention the date and the product used on the health certificate).
- The animal must be free of any endo parasites. Therefore it should be treated within 14 days prior to the departure with a registered medicine as instructed by the manufacturer (mention the date and the product used on the health certificate).
- After treatments the animal must be kept free of any ecto and endo parasites.
- The animal must be transported in a suitable kennel and according to IATA regulations.
- The importation of a pit bull-terrier type dog is not permitted.

* Northern Ireland is part of the United Kingdom (UK), but will continue to follow European Union (EU) requirements even though the UK is no longer part of the EU.

** Norway and Switzerland are **not** part of the EU but have adopted EU legislation for import of most species of live animals.

Important Travel Considerations

Considerations for airline travel and cruises:

Airlines and shipping lines have their own policies and requirements for transporting pets. Check with your airline or shipping representative to determine what requirements they may have.

[Learn how you can improve the safety of dogs and cats during air travel.](#)

[View additional information for pet owners, airlines, and others about APHIS endorsement of international health certificates](#) (239.52 KB).

If pets or support animals accompany you on a cruise, you must comply with entry rules for **every** country or port where your pet or support animal exits the ship.

Will you be returning to the United States with your pet?

[View APHIS Requirements](#)

ALERT: If you're traveling with a dog, be aware that the [CDC has additional requirements for bringing a dog into the United States](#). You must follow CDC's requirements, or your dog will not be allowed to enter the United States.

If you are transiting (passing through) the European Union:

If your pet is traveling through (transiting) a country in the European Union (EU) on the way to a third, non-EU country, you will also need a transit health certificate for

your pet for the EU. The transit health certificate will be the same as if your pet's final destination was the EU country. Use the information and steps above under "Travel Requirements Based on Pet Type" to determine which health certificate should be used. [View a list of EU countries.](#)

Still Have Questions?

USDA-Accredited Veterinarians

Contact a USDA-accredited veterinarian for questions about your destination country's entry requirements for pets (including any needed vaccinations, tests, or treatments) and for issuance of health certificates.

[Find a USDA-Accredited Veterinarian](#)

USDA Endorsement Offices

Contact your nearest APHIS Veterinary Export Trade Services Endorsement Office for questions about endorsing a health certificate for pets.

For VEHCS help see the [VEHCS help page](#). Routine APHIS VEHCS processing services are staffed Monday through Friday from 7:00 AM to 4:30 PM Central Time (CT) excluding federal holidays, the time listed in VEHCS reflects GMT.
