Pet travel from the United States to Jamaica

Last Modified:

[Print](#)

Welcome! This page will guide you through the rules and requirements for traveling internationally with your pet.

Before You Start the Process

Find a USDA-Accredited Veterinarian

With help from a [USDA-accredited veterinarian](#), you can learn more about your destination country's entry requirements for pets, including any needed vaccinations, tests, or treatments. We recommend creating a schedule to make sure you meet all requirements within the specified timeframe.

Gather This Information for Your USDA-Accredited Veterinarian

- The type of pet traveling
- The destination country
- If applicable, countries where your pet will stop (for customs clearance or upon leaving the airport or seaport) on the way to the destination country

- The date of departure from the United States
- Whether the pet will be traveling alone, as cargo, or with a person in the cabin of the plane
- *Note: If you're traveling with a pet bird or exotic animal, you may need to work with additional agencies, such as the [U.S. Fish and Wildlife Service](#) (1.41 MB) and [Centers for Disease Control and Prevention](#).*

Travel Requirements Based on Pet Type

Dogs and Cats

The requirements to take your pet dog or cat to Jamaica are listed in the below international health certificates. If you are a veterinarian preparing the export health certificate and plan to submit this to APHIS for endorsement via VEHCS, you can proceed directly to VEHCS without downloading the PDFs of these certificates.

[International Health Certificate - Cats](#) (273.73 KB)

Birds

To take a pet bird to Jamaica, a permit is required and may be obtained by writing to:

Director of Veterinary Services
Ministry of Agriculture and Lands
Kingston 6
Jamaica

The permit will outline the health requirements that must be met for entry. Jamaican regulations require that all animals enter only through the port of Kingston or through the Palisadoes Airport.

The port of entry must be specified in the application permit. If circumstances are warranted, the

Director of the Veterinary Services of Jamaica has the authority to allow the animal to enter through another port. All animals will be inspected upon arrival.

Other Pets

For pet travel requirements not listed, APHIS has not been officially informed by the foreign country about the requirements for your pet's travel. We recommend that you contact a government official of the country you are traveling to for more information.

** Norway and Switzerland are **not** part of the EU but have adopted EU legislation for import of most species of live animals.

Important Travel Considerations

If you are transiting (passing through) the European Union:

If your pet is traveling through (transiting) a country in the European Union (EU) on the way to a third, non-EU country, you will also need a transit health certificate for your pet for the EU. The transit health certificate will be the same as if your pet's final destination was the EU country. Use the information and steps above under "Travel Requirements Based on Pet Type" to determine which health certificate should be used. [View a list of EU countries.](#)

Considerations for airline travel:

Airlines and shipping lines have their own policies and requirements for transporting pets. Check with your airline or shipping representative to determine what requirements they may have.
