# Pet Travel From the United States to Saudi Arabia

Last Modified:

## Travel Requirements Based on Pet Type

**Carefully read ALL of the requirements related to your pet on this page.**

- This page provides the most recent entry requirements and can change without notice.
- It is the responsibility of the veterinarian to make sure the pet has met all health requirements of the destination country before issuing a health certificate.
- Failure to meet the requirements may result in problems gaining certificate endorsement or difficulties upon arrival in the destination country.
- Health certificates must be legible, accurate, and complete.

## Dogs

- Dogs are not generally allowed to be imported to the Kingdom of Saudi Arabia (KSA) except for hunting, guarding and guides for the disabled.
- All dogs traveling must have an import permit issued by the KSA Ministry of Agriculture. U.S. travelers/importers should provide all information of their pets and flight details to their Saudi sponsor who should apply for an import permit from the KSA Ministry of Agriculture.
- The USDA APHIS endorsed veterinary health certificate and a "certificate of origin" (obtained from the KSA Ministry of Agriculture) must accompany the dog during travel.
- The "certificate of origin" does NOT need to be attested to by the Saudi Arabian Embassy in the U.S. prior to travel.
- The KSA import permit, endorsed health certificate, and "certificate of origin" must be obtained prior to travel, but the import permit and "certificate of origin" do not need to be presented to USDA APHIS for endorsement.
- Additional requirements for traveling with your pet are described in the health certificate.

## Important Travel Considerations

**Considerations for airline travel and cruises:**

Airlines and shipping lines have their own policies and requirements for transporting pets. Check with your airline or shipping representative to determine what requirements they may have.

[Learn how you can improve the safety of dogs and cats during air travel.](#)

[View additional information for pet owners, airlines, and others about APHIS endorsement of international health certificates](#) (239.52 KB).

If pets or support animals accompany you on a cruise, you must comply with entry rules for **every** country or port where your pet or support animal exits the ship.

### **Will you be returning to the United States with your pet?**

[View APHIS Requirements](#)

**ALERT:** If you're traveling with a dog, be aware that the [CDC has additional requirements for bringing a dog into the United States](#). You must follow CDC's requirements, or your dog will not be allowed to enter the United States.

**If you are transiting (passing through) the European Union:**

If your pet is traveling through (transiting) a country in the European Union (EU) on the way to a third, non-EU country, you will also need a transit health certificate for your pet for the EU. The transit health certificate will be the same as if your pet's final destination was the EU country. Use the information and steps above under "Travel Requirements Based on Pet Type" to determine which health certificate should be used. [View a list of EU countries.](#)
