Pet Travel From the United States to Thailand

Last Modified:

Travel Requirements Based on Pet Type

Carefully read ALL of the requirements related to your pet on this page.

- This page provides the most recent entry requirements and can change without notice.
- It is the responsibility of the veterinarian to make sure the pet has met all health requirements of the destination country before issuing a health certificate.
- Failure to meet the requirements may result in problems gaining certificate endorsement or difficulties upon arrival in the destination country.
- Health certificates must be legible, accurate, and complete.

Important Travel Considerations

Considerations for airline travel and cruises:

Airlines and shipping lines have their own policies and requirements for transporting pets. Check with your airline or shipping representative to determine what requirements they may have.

[Learn how you can improve the safety of dogs and cats during air travel.](#)

[View additional information for pet owners, airlines, and others about APHIS endorsement of international health certificates \(239.52 KB\).](#)

If pets or support animals accompany you on a cruise, you must comply with entry rules for **every** country or port where your pet or support animal exits the ship.

Will you be returning to the United States with your pet?

[View APHIS Requirements](#)

ALERT: CDC is the primary authority for dog imports. For requirements or questions

about dogs entering or returning to the United States, visit the [CDC website](#).

If you are transiting (passing through) the European Union:

If your pet is traveling through (transiting) a country in the European Union (EU) on the way to a third, non-EU country, you will also need a transit health certificate for your pet for the EU. The transit health certificate will be the same as if your pet's final destination was the EU country. Use the information and steps above under "Travel Requirements Based on Pet Type" to determine which health certificate should be used. [View a list of EU countries](#).
