Finland, Malta, Ireland (including Northern Ireland) and Norway - Health Certificates

Last Modified:

Important!

Before choosing one of the health certificates below, you must read [Finland, Malta, Ireland \(including Northern Ireland\)*, and Norway's* pet travel requirements](#).

Note: Dogs must be treated for tapeworms by an Accredited Veterinarian BEFORE traveling to Finland, Malta, or Ireland (including Northern Ireland), or Norway.

*Northern Ireland and Norway are not part of the European Union (EU) but follow EU requirements.

Pet Transport Company or Airline Cargo is solely responsible for shipping the pet AND the owner or designated person* has traveled or will travel within 5 days of the pet(s)

**Designated person is a family member, friend, or other person authorized by the owner to travel with the pets.*

Notice: The pets must arrive in the EU **within 10 days** from the date USDA endorses the "Non-commercial" health certificate.

Notice: The designated person must travel with the pet if the owner is traveling within 5 days of the pet's travel. The pet can only travel alone if it is using a commercial health certificate.

If the owner or designated person **CANNOT** travel with the animal but is traveling within 5 days (before or after) of the pet, the exporter may submit a Non-Commercial health certificate as long as they provide a justification for not traveling with the pet/s and the owner's travel information along with the health certificate.

Pets transiting through the EU to a non-EU country as the final destination without their owners or designated person can use a Non-Commercial health certificate as long as the owners are traveling within 5 days and must provide a justification and travel information along with the certificate. Otherwise, the pet/s must travel with a Commercial Dog, Cats, and Ferret health certificate.
