Pet Transport Company or Airline Cargo is solely responsible for shipping the pet AND the owner or designated person* has traveled or will travel within 5 days of the pet(s)

**Designated person is a family member, friend, or other person authorized by the owner to travel with the pets.*

Notice: The pets must arrive in the EU **within 10 days** from the date USDA endorses the "Non-commercial" health certificate.

Notice: The designated person must travel with the pet if the owner is traveling within 5 days of the pet's travel. The pet can only travel alone if it is using a commercial health certificate.

If the owner or designated person **CANNOT** travel with the animal but is traveling within 5 days (before or after) of the pet, the exporter may submit a Non-Commercial health certificate as long as they provide a justification for not traveling with the pet/s and the owner's travel information along with the health certificate.

Pets transiting through the EU to a non-EU country as the final destination without their owners or designated person can use a Non-Commercial health certificate as long as the owners are traveling within 5 days and must provide a justification and travel information along with the certificate. Otherwise, the pet/s must travel with a Commercial Dog, Cats, and Ferret health certificate.
