PCN Regulated Field Description April 20 2022

Last Modified:

Since the last update to the pale cyst nematode regulated Area on November 29, 2021, approximately 2 acres have been released from regulation after determining a portion of a field did not meet the definition of an 'associated field' in accordance with the Federal PCN Final Rule, subpart 301.86-3(c)(2) *Criteria for designation of fields as infested fields and associated fields – Associated fields*. The field is located in Bingham County; T 01 S, R 37 E, section 5.

With this change, the current regulated area is 6,568 acres, of which 3,542 acres are infested fields and 3,026 acres are associated fields.
