Other

The below versions should be utilized when one or more of the following is true. To utilize these versions, the inappropriate text must be lined out prior to endorsement. The text must be lined-out consistent with the pertinent versions above. For example, sections II.3-II.4 must be lined out as noted in the above versions in all

these cases.

1- Blood products derived from two or more of the following groups of animals are certified on the same certificate:

- Artiodactyla, Perrissodactyla, Proboscidea Animals (Includes Ruminants);
- Suidae/Tayassuidae Animals (includes Pigs);
- Avian Animals

2- Blood products treated in different ways (e.g. some products are processed using heat treatment, and others with irradiation) are certified on the same certificate

3- Consignments only transiting or being stored in Serbia

4- Blood products shipped in bulk containers (when the inner most packaging of the blood products is not new or sterilized bags or bottles): In the case of blood products that are shipped in bulk containers, the certificate should be lined out as noted in the versions above, except Section II.8 should be lined out as follows:
