NAHLN Testing Requirements for Commercially Available Products

Information for commercial manufacturers of reagents and testing platforms on minimum validation requirements for acceptance into the NAHLN. Additional approvals by the NVSL, VS' Center for Epidemiology and Animal Health, and the appropriate commodity program may be required prior to deployment of new test methods to NAHLN laboratories.

For questions regarding this process, contact the NAHLN Program Office at nahln@usda.gov. For information on test panel availability, contact nvsl.info@usda.gov.
