Safety Data Sheets

Last Modified:

There are only three items shipped by the NVSL that require a safety data sheet (SDS) as specified in the OSHA Hazard Communication Standard (Title 29, Code of Federal Regulations, Part 1910.1200).

Tuberculosis sampling kits distributed by the NVSL contain a 10% formalin solution (neutral buffered, pH 7) and a 6% sodium tetraborate decahydrate solution. Dry ice is sometimes used to ship biological materials.

- SDS for 10% formalin (PDF; statlab.com)
- SDS for sodium tetraborate decahydrate
- SDS (64.2 KB) for dry ice (PDF, 43 KB)

The following SDS's for the ingredients of Tris-buffered tryptose (TBTB) broth are available:

- Tryptose broth (BD Diagnostic Systems)
  - In *Country (Language)* dropdown, select USA (English)
  - In *BD Catalog Number* field, enter 262200
- Trizma Base (Sigma Aldrich)
- Phenol Red (Sigma Aldrich)
- Gentamicin (74.48 KB) (Sparhawk Laboratories)
- Amphotericin B (Sigma Aldrich)

SDS for Brain Heart Infusion (BHI) media (BD Diagnostics).

- In *Country (Language)* dropdown, select USA (English)
- In *BD Catalog Number* field, enter 211059

Call 515-337-7555 if you have questions.
