Great Britain - Milk and Milk-Based Products for Livestock Feed [GBHC583; EU Chapter 2(A) equivalent] - VALID ANYTIME

Last Modified:

Model health certificate for milk, milk-based products and milk-derived products not for human consumption [12 Equivalent]

To be eligible for this certificate, a facility must be listed for [and the materials must meet the requirements of] the Regulation 142/2011 as amended “CHAPTER 2(A) Health certificate for milk, milk-based and milk-derived products, not intended for human consumption for dispatch to or for transit through the European Union”.

Please contact your [Veterinary Export Trade Services](#) for details on how to request required listings and certificates.

Milk and Milk-Based Products to the European Union for Livestock Feed

Colostrum and colostrum products:

APHIS cannot endorse certificates for exports of colostrum or products derived from colostrum to the European Union (EU). The EU has certification requirements for these products that cannot be endorsed by APHIS. APHIS has asked the EU to modify these requirements for products intended for animal consumption, and discussions are ongoing. Exception: Colostrum (intended and labeled for consumption by pet animals not including livestock species or horses) may be included in certain pet foods produced and exported under the Chapter 3(A) or Chapter 3(B) Health Certificates. For information on these certificates, please go back to the previous page and select the pertinent pet food links.

Ovine/Caprine (Sheep/Goat) milk products for feeding to farmed animals (other than fur bearing animals such as mink):

The EU requires certification for these materials (if imported for feeding to farmed animals other than fur bearing animals such as mink) that is not available for U.S.-origin materials. At this time, ovine/caprine-origin dairy products are ineligible for export to the EU for use in feed for farmed animals (other than fur bearing animals such as mink).

Chapter 2(A) Health Certificate for Commodities (Not including ovine/caprine materials for feeding to farmed animals [other than fur bearing animals such as mink] nor any colostrum):

The below certificates are for materials that are milk-based and packaged in new containers. For other materials, please go to the bottom and select the “other” options.

Please select the appropriate certificate below based upon the milk-origin ingredients included in the product(s) to be exported, and the processing method(s) utilized. The health certificate and notes for completion are two separate documents. When submitting the certificate(s) for endorsement to the service center, it is required to include both the certificate and the notes for completion with the appropriate line-outs. The notes section is not required to accompany the certificate or consignment, but is provided with line-outs to assist exporters and endorsing officials.

I. Milk-based products other than whey and derivatives of whey:

A. Products treated with "high temperature short time pasteurization" in combination with the following second treatment

1. Subsequent second high temperature short time pasteurization
[Certificate](#) (315.93 KB) - July 2024
[Notes](#) (160.11 KB) - July 2024
2. Subsequent drying process of 72C or higher
[Certificate](#) (315.97 KB)- July 2024
[Notes](#) (163.98 KB)- July 2024
3. Subsequent pH reduction to a pH less than 6
[Certificate](#) (324.74 KB) - July 2024
[Notes](#) (166.55 KB) - July 2024
4. Subsequent verification of production in the U.S. at least 21 days before shipping
[Certificate](#) (324.76 KB) - July 2024
[Notes](#) (166.68 KB) - July 2024
5. Subsequent verification of production in the U.S. at least 21 days before arrival to GB
[Certificate](#) (324.7 KB) - July 2024
[Notes](#) (168.69 KB)- July 2024
6. Subsequent sterilization at a level of at least F_{03}
[Certificate](#) (324.77 KB) - July 2024
[Notes](#) (168.43 KB)- July 2024

B. Products treated with "ultra high temperature treatment at 132C for one second" in combination with the following second treatment

1. Subsequent drying process of 72C or higher
[Certificate](#) (324.82 KB) - July 2024
[Notes](#) (163.2 KB) - July 2024

2. Subsequent pH reduction to a pH less than 6
[Certificate](#) (331.85 KB)- July 2024
[Notes](#) (166.55 KB) - July 2024
3. Subsequent verification of production in the U.S. at least 21 days before shipping
[Certificate](#) (324.82 KB) - July 2024
[Notes](#) (168.34 KB)- July 2024
4. Subsequent verification of production in the U.S. at least 21 days before arrival to GB
[Certificate](#) (331.79 KB) - July 2024
[Notes](#) (167.02 KB) - July 2024

II. Whey and derivatives of whey where whey was produced at least 21 days prior to export:

- A. Products treated with "high temperature short time pasteurization" in combination with the following second treatment
1. Subsequent second high temperature short time pasteurization
[Certificate](#) (330.01 KB)- July 2024
[Notes](#) (150.07 KB) - July 2024
 2. Subsequent drying process of 72C or higher
[Certificate](#) (330.05 KB) - July 2024
[Notes](#) (153.59 KB) - July 2024
 3. Subsequent pH reduction to a pH less than 6
[Certificate](#) (323.56 KB) - July 2024
[Notes](#) (160.91 KB)- July 2024
 4. Subsequent verification of production in the U.S. at least 21 days before shipping
[Certificate](#) (323.52 KB) - July 2024
[Notes](#) (160.68 KB) - July 2024

5. Subsequent verification of production in the U.S. at least 21 days before arrival to GB

[Certificate](#) (323.44 KB) - July 2024

[Notes](#) (161.36 KB) - July 2024

6. Subsequent sterilization at a level of at least $F_0 3$

[Certificate](#) (323.46 KB) - July 2024

[Notes](#) (162.32 KB) - July 2024

B. Products treated with “ultra high temperature treatment at 132C for one second” in combination with the following second treatment

1. Subsequent drying process of 72C or higher

[Certificate](#) (323.51 KB) - July 2024

[Notes](#) (152.44 KB) - July 2024

2. Subsequent pH reduction to a pH less than 6

[Certificate](#) (323.55 KB)- July 2024

[Notes](#) (157.56 KB)- July 2024

3. Subsequent verification of production in the U.S. at least 21 days before shipping

[Certificate](#) (323.57 KB)- July 2024

[Notes](#) (161.76 KB)- July 2024

4. Subsequent verification of production in the U.S. at least 21 days before arrival to GB

[Certificate](#) (323.48 KB) - July 2024

[Notes](#) (160.55 KB) - July 2024

III. Other - Utilize the below certificates when none of the above situations are appropriate.

When these are utilized all applicable line-outs must be made and where appropriate accurate information filled in prior to submission of the certificate to APHIS for endorsement for both the certificate and the notes of completion. This includes materials shipped in bulk containers versus individual packages.

[Dispatch Certificate](#) (309.27 KB) - July 2024

[Dispatch Notes](#) (172.18 KB) - July 2024

[Transit Certificate](#) (310.56 KB) - July 2024

[Transit Notes](#) (164.91 KB) - July 2024
