#### VETERINARY HEALTH CERTIFICATE FOR EXPORT OF FEEDER CATTLE FROM THE UNITED STATES OF AMERICA FOR IMPORT INTO THE REPUBLIC OF AZERBAIJAN

Veterinary Authority UNITED STATES DEPARTMENT OF AGRICULTURE Date Of Issue

Certificate Number

## **II. CERTIFICATION STATEMENTS:**

I, the undersigned USDA accredited veterinarian, certify to the following statements.

- 1. The United States is free of contagious bovine pleuropneumonia, foot and mouth disease, and rinderpest.
- 2. The United States is recognized by the World Organization for Animal Health (OIE) as a country with negligible or controlled risk of bovine spongiform encephalopathy (BSE).
- 3. The state of origin has been free of brucellosis and tuberculosis for the 12 months prior to export.
- 4. The state or herd of origin has been free of evidence of bovine leukosis, infectious bovine rhinotracheitis, campylobacteriosis and trichomoniasis for the 12 months prior to export.
- 5. The animals were isolated for at least 21 days prior to export.
- 6. The animals were inspected within 21 days prior to export and found to be free from clinical evidence of communicable diseases.

# **III. TEST REQUIREMENTS:**

The cattle must be tested with negative results as below.

Tuberculosis:

Intradermal test using bovine PPD tuberculin **OR** other test acceptable to USDA. Test date(s) \_\_\_\_\_

### IV. OTHER VETERINARY TREATMENTS AND INSPECTIONS

Within 21 days prior to export and during quarantine, the animals were inspected and treated for internal and external parasites. Date:\_\_\_\_\_\_ Name of product: \_\_\_\_\_\_

The animals will receive veterinary inspection, within 48 hours of export, and found free of evidence of communicable disease. This inspection is required by the US Code of Federal Regulations and will be verified by completion of a USDA APHIS VS Form 17-37.
