

**Attestations for Live Ornamental Aquatic Animals Intended for Live Ornamental
Intended for Commercial Aquarium use in CLOSED Premise in Canada**

Zoosanitary Information

1. The population(s) to be exported has(have) been present on the premises for at least 7 days prior to export and not experienced any unexplained morbidity or mortality events during that time. Exports of aquatic animal populations to Canada cannot occur until the 7 day period of time is completed.
2. The aquatic animal(s) are of US origin or were legally imported and are not under any restriction by USDA-APHIS or intended for destruction or slaughter for disease control purposes.
3. To the best of my knowledge, the aquatic animals to be exported are not exposed to any other animals or water of lesser health status. Only water from this premise(s) of the same health status is used in this shipment.
4. Animals have been inspected within 96 hours prior to export on the date of signature and appear to be free of the diseases in Section 4 and, to the best of my knowledge, exposure thereto.
