Certification Statements:

1. I certify that the animals described have been inspected by me on this date, within 14 days of export, and appear to be free of any infectious or contagious diseases and, to the best of my knowledge, exposure thereto, which would endanger the animals or other animals or would endanger public health.
2. The animals were vaccinated for rabies at the age of 12 weeks or older with an inactivated vaccine at least 21 days but not longer than 12 months to 36 months (as registered by the manufacturer) prior to departure.
3. The animals were treated for endo and ectoparasites as listed in (a.) and (b.). The date, time (when applicable) and product used are listed in the corresponding table below:
 - a. The animal was treated for ectoparasites 48 hours prior to departure with an approved product; and,
 - b. The animal was treated for endo-parasites within 14 days prior to departure with an approved product.

Microchip Number	Ecto-Parasite Treatment		Endo-Parasite Treatment	
	Date & Time Performed	Product Used	Date Performed	Product Used

This certificate is valid for 14 days after issuance.

Additional information:

- The animal has to be transported in a suitable kennel and according to IATA regulations.
- The importation of a pit bull-terrier type dog is not permitted.
